

File:	Always supply your artwork as a fully vector-based file in .AI, .SVG or .PDF format. All logos, text and graphic elements must consist of actual vectors. If only .JPG or .PNG files are available, it is important to contact our team first.
Text:	Always convert all text to outlines (paths).
Printing colours:	Always supply the files in the desired printing colour(s). If your desired printing colour is black or white, supply the file as 0/0/0/0 CMYK for white and 0/0/0/100 CMYK for black. Pantone colours are printed as closely as possible. CMYK printing is available upon consultation.
Printer's marks:	Supply the file without printer's marks.
Text size:	Small text and fine graphic elements may fill in during printing.
Background:	Supply the files without a background (including a white background or a background matching the colour of the balloon).
Legibility:	Please note that round or square shapes may become distorted when printed on this product.

Check before submitting:

- ☐ All elements as vectors
- ☐ Correct file format (AI, SVG or PDF)
- ☐ Supplied in the desired print colours
- ☐ NO background
- ☐ No small text or elements

Use this checklist to verify that the files you are submitting are ready for production.
This helps prevent delays in processing your order.
